2. Head of the organization: Devyatkov Andrey Vladimirovich. Devyatkova Elena Nikolayevna.

3. Number of children as of this day: 4 (3 girls, 1 boy).

4. Brief description of the issue:

Devyatkov's foster home was created on April, 8th 2011. After working for 11 years in the orphanage "Nadezhda" (Hope) in the city of Gorlovka, Donetsk region, I came to the conclusion that even the best of orphanages cannot replace the comfort of a fireside and the love and affection of a mother and a father in the heart of parentless children. Last year, my wife Elena Nikolayevna and I decided to take care of such children. In my country, it is legally impossible to create a family children's home without the administrative denomination of a foster home. What's more, our current housing conditions do not fit the legal requirements for family children's homes. I recently managed to acquire the house, but I need financing in order to reach the proper level of comfort for the children by enlarging the floor area and renovating the house. In the future we plan to adopt 4 to 6 more orphans and parentless children.

5. Approximate renovation cost sheet

- Windows – switching to reinforced-plastic ones:  
8 windows\*4000 Hryvnias=32000 Hryvnias (\$4,000);
  - Changing roof coating:  
200 square meters\*250 Hryvnias = 50000 Hryvnias (\$6,250);
  - Changing the fence (enclosure and gate):  
24 000 Hryvnias (\$3,000)
- Total: \$13,250

6. Forecasted duration of project realization: we pledge to finish renovations within a month after receipt of the funds.
