To the head of corporation
« lehman Brothers »

Our Dear Friends at Lehman Brothers!

This letter comes to you from far off Russia, from the organization "Family commune "Hope"- Evgenie Kliot, Ludmila Berezhnoj and the children of this commune.

We were overwhelmed with joy when we are learned that your corporation has appreciated our troubles and problems, and your wish to help our children.
You give to us enormous help towards the realization of our dreams.

Your attention to us, and your care, fills our hearts with gladness.

As a result of your help we have now the means to overcome a major problem for our organization.

We are very grateful for your help in the solving of the these vital problems.

We believe that any words of gratitude cannot properly explain the feeling in the our hearts and souls, but all the same we wish to express to you our enormous gratitude.

Thank you so much for the helping hand that you have extended to us!

After reconstruction of a pig sty, in a part-time farm of a commune in the settlement of Tervu in Karelia, our children will now be able to provide themselves with fresh meat products.

The children of this commune are all orphans, without families in one way or another, and they have many different problems.

They have nobody to take care of them in their young lives (at a time when children need a lot of care and attention), just the family commune "Hope", which looks after and cares for them.

Our commune does everything possible to solve the complex problems of their survival, self-maintenance and social development.

Our support will really help to reduce the number of juvenile offenders and homeless children in Russia, coupled with our determination to make them high-class citizens.

We wish you, with all our hearts, good health and success in your business.

With warm and enduring good wishes for you,

Ludmila, Evgeny and Children.
